Property Search and
Acquisition Service

BTF Finders

This new service from BTF Partnership is all about matching buyers with sellers. Buyers of all types of property who are either unable to search themselves or for those who understand the significance of having personal representation in what is invariably a challenging and time-consuming transaction.

Our property search service is available to those ready to buy and is led by Christopher Linton, who has nearly thirty years' experience of buying, negotiating and selling all types of property across Kent and Sussex. Christopher's in-depth knowledge, attention to detail and understanding of the market, along with his down to earth and straight forward approach, will provide retained clients with the experience and expertise to buy with confidence.

Acting as a Property Search Agent across Kent and Sussex, Christopher's strong links to the local community, schools and local and regional estate agents can provide advanced notification of property both on and off the open market and afford unique opportunities for purchasers.

Finding a wide variety of property across Kent and Sussex

The ability to match buyers and sellers along with BTF's wider land agency network to support and advise on rural property ownership means we can open doors through our existing client database and also help to identify more discreet off market opportunities. Not everyone wants to put their property onto the open market for a number of reasons, so having access to a confidential network of buyers can be greatly beneficial.

Many lifestyle buyers of rural properties value the support and extra information we can provide to enable them to understand some of the complexities of rural property ownership.

We can help to save you time, narrow down possibilities and provide insight and information into local areas and markets to enable our clients to purchase with confidence, unlocking some of the best opportunities.

Whether you are looking for the perfect family home, small holding, land, development opportunities or country estate, please get in touch to see how we can assist.
